OUR PROJECTS

ABOUT US

Shaks Projects India Private Limited (SPIPL) is a Chennai based construction company established in the year 2004 by Suresh Kumar, M.Tech, F.I.E, & his team. The company designs and develops quality space valuing the customer need and operates in niche Warehouses & Industrial Segment in South, North East India and Bhutan. SPIPL has an expertise, team and machineries for Site Development, Pre-Engineered Structures for Warehouses and Factory Buildings & Cold Storages.

WHAT WE DO

Pre-Engineered Buildings

Pre-engineered building system is one of the fast & economical building system in the world. This building system offers speed, quality and value to the building.

Pre-engineered buildings, compared to conventional steel buildings, offer numerous advantages especially when it comes to low rise buildings. We have a qualified and experienced team of designers & engineers who specialize in the turnkey construction of pre-engineered steel buildings.

**Adding Value In
Every Project**

Warehouses / Cold Storage :

While designing the warehouses / Cold storage we keep in mind the category and purpose of the building. We deal in all types of warehouses understanding the requirement of the customers need & keeping future expansion of the warehouse.

Factory Sheds :

Our expertise is capable in fabricating such structural sheds in different sizes and dimensions and other optional features as per the specified requirements of our clients.

Site Development :

We can provide services for large and small projects to meet your needs. Services we typically provide on projects include: From mass earthmoving to fine grading and shaping, our Site Development division has the resources to handle the job.

Industrial Floorings :

We provide Tremix Flooring, Epoxy Flooring, Ashford Formula Flooring, Mastic Asphalt Flooring as required and to the satisfaction of the clients.

Commercial Building :

SPIPL is engaged in managing the development of various types of residential and industrial buildings as per the clients' needs. SPIPL team has an excellent team of Designers, Engineers, Contractors, Field officers, Site supervisors, Security guards etc.

Design & Detailing

Planning, Execution to Handing over of site we ensure the clarity, quality, budget & timeframe specified by our clients. Our Team has not only a high standard of engineering knowledge but also supervisory and administrative skills ensuring smooth functioning of the work.
